

EMR is a global leader in metal recycling employing 4500 staff across 170 locations around the world. EMR's recycling process begins with the collection of scrap metal from businesses, manufacturers, construction sites, government bodies and the general public. Our depot and operational teams are instrumental to our success; as they are the first stage in the process and receive delivery of a wide range of metals and materials. Their daily activities are supported by our advanced systems which ensure accurate tracking and security for all materials.

360 Excavator Operator

EMR is now looking for an Operator, with 360 Excavator/Grab or Crane experience to join our busy depot in Glasgow.

- Actively participate in the loading and unloading of material.
- Check incoming materials and ensure they are in the correct area.
- Operate mobile plant machinery including 360 degree excavators, forklifts and site Lorries. Training will be given where necessary.
- Conduct daily checks on static and mobile plant and report problems accordingly.
- Monitor all visiting suppliers – including PPE inspections.
- Ensure the company Health and Safety policies are strictly adhered to.
- Assist depot management as required.

Please Note: This is not a Construction site so a CITB License is not required, previous experience of operating Mobile Plant will be sufficient as further training will be provided.

The Person:

It is essential all Operations staff are safety conscious and have a good appreciation/awareness of our unique working environment. Applicants should be organised, motivated individuals who can work to deadlines and be prepared to adapt according to business priorities on their particular site. Exceptional communication skills are required to effectively work with team members but also to assist customers and suppliers with any potential queries they may have.

Application:

Please apply to recruitment@emrgroup.com with an up to date CV and details of your current salary. Alternatively an application form can be requested by contacting the same Email address.

Our employees have helped build the organisation into the world leading recycling company it is today.
