

EMR is a global leader in metal recycling employing 4500 staff across 170 locations around the world. EMR's recycling process begins with the collection of scrap metal from businesses, manufacturers, construction sites, government bodies and the general public. Our depot and operational teams are instrumental to our success; as they are the first stage in the process and receive delivery of a wide range of metals and materials. Their daily activities are supported by our advanced systems which ensure accurate tracking and security for all materials.

Depot Manager

The role of Depot Manager at EMR Group is broad in its requirements, which will provide a challenging but rewarding working environment. You will take responsibility for the Operations and Commercial activities of our busy metal recycling site in Chard. This will include supporting and leading a small team of dedicated Operations and Administration staff; as well as managing visitors, customers, drivers and contractors when on site. You will also ensure the depot is working in line with Health and Safety regulations and Industry legislation.

The Depot Manager also has commercial responsibility for the site. You will need to have a good understanding of metal grades, making sure landed costs of material fall within authorised price boundaries. You will be well supported by EMR's Commercial and Finance teams when assessing budgets, pricing and P&L activities.

You will also need to develop a detailed understanding of the various operations/processes relating to ferrous and non-ferrous metals, as well as gaining knowledge of mobile and static plant capabilities and their maintenance requirements.

The Person Spec:

Previous experience of Leadership in Metal Recycling is preferred. Alternatively you may have Operations Management or Supervisory experience in a similar industry which is transferable to our busy working environment. EMR Group is always keen for their employees to demonstrate Resourceful and Entrepreneurial qualities, which should come to the fore when working under pressure or to tight deadlines.

It is essential all EMR Managers are safety conscious and can create a H&S culture appropriate to our unique working environment. Applicants should be organised, motivated individuals who can work to deadlines and be prepared to adapt according to business priorities on their particular site.

Exceptional communication skills are required to inspire team members but also to assist customers and suppliers with any negotiations or queries they may have.

Application:

Please apply to recruitment@emrgroup.com with an up to date CV and details of your current salary. Alternatively an application form can be requested by contacting the same Email address.

Our employees have helped build the organisation into the world leading recycling company it is today.
