

European Metal Recycling is a global leader in metal recycling employing 4500 staff across 170 locations around the world. EMR's recycling process begins with the collection of scrap metal from businesses, manufacturers, construction sites, government bodies and the general public. Our depot and operational teams are instrumental to our success; as they are the first stage in the process and receive delivery of a wide range of metals and materials. Their daily activities are supported by our advanced systems which ensure accurate tracking and security for all materials.

Site Operative - End of Life Vehicle Team

We are looking for a Site Operative with the ELV Team (End of Life Vehicle).
Your activities and responsibilities will focus on;

- Preparing Vehicles for the shredding process.
- Actively participate in the dismantling, stripping and removal of parts from vehicles.
- Ensure the company Health & Safety and environmental policies are strictly adhered to.
- Conduct daily checks on mobile plant and report problems accordingly.
- Safely operate and be willing to learn the operation of various items of mobile plant on site.
- Monitor all visiting suppliers – including PPE compliance.
- Assist depot management as required.

EMR is looking for an individual with a strong customer focus who is passionate about delivering market leading customer service. The candidate must be honest, personable, with a keen eye for detail. It is essential that all of our staff are safety conscious and have a good appreciation/awareness of our unique working environment.

Applicants should be organised, motivated individuals who can work to deadlines and be prepared to adapt according to business priorities. Exceptional communication skills are required to effectively work with team members and to assist customers and suppliers with any potential queries they may have.

Opportunities to develop are available to the successful candidate
