

MBA Polymers is the world leader at producing post-consumer recycled plastics from end-of-life durable goods and can boast the most technically advanced plastic recycling facilities on the planet! The site at Worksop is a joint venture with the largest metal recycler in the British Isles and one of the largest in the world - EMR Group.

**Shift Operative:**

The post holder will work as part of a team, to ensure that the designated area of work is fully operational, minimising downtime and maximising efficiencies to agreed standards, targets and specifications. Once trained, you will operate various production machinery; maintaining operations at the agreed level and maximising productivity. Appropriate checks on machinery/equipment will also be required and any issues to be reported to the Shift Manager/Supervisor.

There will also be a requirement to operate company vehicles, including front loaders, FLT's (Counterbalance & Reach), cherry pickers, telehandler and pallet trucks (only when licenced and trained to do so)

The ideal candidate should be an excellent communicator, capable of working effectively with Team Members and Supervisors to create a friendly, professional and hardworking environment. You will be an organised, motivated individual who can work to deadlines and be prepared to adapt according to business priorities. MBA Polymers promotes a strong safety culture and it is important applicants are Health and Safety conscious, with a good appreciation of our unique working environment.

This role attracts a shift premium, working a 4 day Shift Pattern (Mon to Fri) that includes 12 hour days and nights.

**Application:**

Please apply to [recruitment@emrgroup.com](mailto:recruitment@emrgroup.com) with an up to date CV and details of your current salary. Alternatively an application form can be requested by contacting the same Email address.
