

EMR is a global leader in metal recycling employing over 4500 staff across 170 locations around the world. EMR's recycling process begins with the collection of scrap metal from businesses, manufacturers, construction sites, government bodies and the general public. Our depot and operational teams are instrumental to our success; as they are the first stage in the process and receive delivery of a wide range of metals and materials. Their daily activities are supported by our advanced systems and procedures which ensure safe and accurate purchasing of materials.

At EMR's busy Alexandra Dock site, we are now looking to recruit an experienced Operative with ambitions to take on Supervisory responsibilities.

- Actively participate in our strong safety culture.
- Ensure the company Health & Safety and environmental policies are strictly adhered to.
- Conduct daily checks on mobile and fixed plant and report problems accordingly.
- Safely operate plant machinery and develop maintenance knowledge.
- Monitor all visiting suppliers – including PPE compliance.
- Assist depot management as required.

EMR is looking for an individual with a strong customer focus and a keen eye for detail who can professionally and confidently interact with customers. It is essential that all of our staff are safety conscious and have a good appreciation/awareness of our unique working environment. At EMR we uphold and promote a strong safety culture.

Applicants should be organised, physically fit and motivated individuals who can work to deadlines and be prepared to adapt according to business priorities. Knowledge of relevant industrial process machinery such as shredders and screeners is highly desirable; as is waste or recycling experience.

Candidates should have the ability to stay calm under pressure whilst operating safely and efficiently in a dynamic environment. As this role includes an early start, you must live within reasonable travelling distance of the depot. Exceptional communication skills are required to effectively work with team members and to assist customers and suppliers with any potential queries they may have.

Opportunities to develop are available to the successful candidate.

**Application:**

Please apply to [recruitment@emrgroup.com](mailto:recruitment@emrgroup.com) with an up to date CV and details of your current salary. Alternatively an application form can be requested by contacting the same Email address.

*Our employees have helped build the organisation into the world leading recycling company it is today.*
