

EMR is a global leader in metal recycling employing 4500 staff across 170 locations around the world. EMR's recycling process begins with the collection of scrap metal from businesses, manufacturers, construction sites, government bodies and the general public. Our depot and operational teams are instrumental to our success; as they are the first stage in the process and receive delivery of a wide range of metals and materials. Their daily activities are supported by our advanced systems which ensure accurate tracking and security for all materials.

Small Scales Operative

As a Small Scales Operative you will work closely with customers and members of the public, advising them on metal recycling, pricing and payment process. You will often be the first point of contact for customers and you will be expected to manage and exceed their expectations. Training will be provided to understand our business in more detail and to enhance your knowledge of ferrous and non-ferrous metals.

- Accurately weigh, organise and record metal deliveries to site.
- Actively participate in the loading and unloading of material.
- Check incoming materials and ensure they are tipped in the correct area.
- Operate or be willing to learn the operation of the various static plants.
- Ensure the company Health and Safety policies are strictly adhered to.
- Assist depot management as required.

The Person:

Exceptional communication skills are required to effectively work with team members but also to assist customers and suppliers with any potential queries they may have.

It is essential all Operations staff are safety conscious and have a good appreciation/awareness of our unique working environment. Applicants should be organised, motivated individuals who can work to deadlines and be prepared to adapt according to business priorities on their particular site.

Application:

Please apply to recruitment@emrgroup.com with an up to date CV and details of your current salary. Alternatively an application form can be requested by contacting the same Email address.

Our employees have helped build the organisation into the world leading recycling company it is today.
