

EMR is a global leader in metal recycling employing 4500 staff across 170 locations around the world. EMR's recycling process begins with the collection of scrap metal from businesses, manufacturers, construction sites, government bodies and the general public. Our depot and operational teams are instrumental to our success; as they are the first stage in the process and receive delivery of a wide range of metals and materials. Their daily activities are supported by our advanced systems which ensure accurate tracking and security for all materials.

**The Role:**

As a Trainee Manager you will have the opportunity to learn the metal recycling industry whilst developing a career with UK's largest purchaser of scrap metal. Your role will be varied, working with a range of divisions and functions to develop knowledge that will take you to the next step on the managerial ladder. Initially, this role will be hands on and you will be required to support busy operations at one of our largest depots, whilst keeping close contact with the Depot Manager.

You will have a broad remit which will include:

- Management of all visitors including customers, drivers and contractors when on site.
- Ensure depot operations are operating within all relevant laws and licensing requirements.
- Carefully organising the loading and unloading of material.
- Develop a detailed understanding of all EMR bespoke management
- Ensure material is graded and priced appropriately
- Develop a detailed understanding of all the various type of operations including typical ferrous and non-ferrous operations
- Develop a detailed understanding of all mobile and static plant to understand processing capabilities and maintenance requirements

**The Person:**

You will be a motivated, hard working individual who can take responsibility of both staff and situations that may arise on site. It takes time to fully understand the business and our industry sector; candidates will need patience as they develop, but the rewards are significant.

An FLT License would be preferred although not a necessity.

It is essential all Operations/Depot/Process staff are safety conscious and have a good appreciation/awareness of the unique working environment. Applicants should be organised, motivated individuals who can work to deadlines and be prepared to adapt according to business priorities on their particular site.

Exceptional communication skills are required to effectively work with team members but also to assist customers and suppliers with any potential queries they may have.

**Application:**

Please apply to [recruitment@emrgroup.com](mailto:recruitment@emrgroup.com) with an up to date cv and details of your current salary. Alternatively an application form can be requested by contacting the same Email address.

***Our employees have helped build the organisation into the world leading recycling company it is today.***
