

EMR is a global leader in metal recycling employing 4500 staff across 170 locations around the world. We have an unrivalled logistics capability, underpinned by a vast fleet of dedicated vehicles and advanced computer planning/ tracking systems. Our busy Transport division is a high profile and varied working environment, pivotal to the success of our business.

### **Vehicle Mechanic (HGV / LGV)**

If you're a hands-on mechanic with experience of working on LGVs, this is a superb opportunity to develop a challenging, yet highly rewarding career. As a Vehicle Mechanic at EMR, you will prepare LGVs and HGVs for MOTs to DVSA standards, as well as diagnosing faults, carrying out repairs and complying with good working practices.

Previous experience as a vehicle mechanic, including experience working with LGVs is essential as is a full driving licence. Fabrication skills would be beneficial to your application, as would knowledge of VOSA and/or DSA legislation. An LGV category C driving licence and experience of working on Scania, Volvo and DAF trucks would also be advantageous.

We offer excellent hourly rates, a minimum 45 hour working week and plenty of O/T available paid at x 1.5

### **The Person**

It is essential all our Transport staff are safety conscious and have a good appreciation and awareness of our unique working environment. Applicants should be customer focused and good communicators as they will interact with a wide range of internal and external staff. Our transport requirements vary from day to day and no job is the same; so if you enjoy working in a thriving environment with a market leader, then please get in touch.

### **Application:**

Please apply to [recruitment@emrgroup.com](mailto:recruitment@emrgroup.com) with an up to date CV and details of your current salary. Alternatively an application form can be requested by contacting the same Email address.

***Our employees have helped build the organisation into the world leading recycling company it is today.***
